LIBRARY BOARD MEETS TO-NIGHT

Much Speculation As to Action on Resignation of Kennedy.

RICHMOND MEMBERS DECLINE TO TALK

Record of Legislative Inquiry Now in Hands of Members. Question of Position of Subordinates - Rumors Concerning Dismissal Regarded as Absurd.

The State Library Board, consisting of five members, will meet to-night in regular session. Unusual interest attaches to this meeting by reason of the recent criticisms of State Librarian J. P. Kennedy, and the probability of some action by the board on his resignation, which is in their hands. Up to this time, however, no hint has been given of the probable action of en given of the probable action of board, if indeed any has been even

the board, if indeed any has been even considered.

The recent disclosures as to the prices paid for books by the State Librarian, and particularly a transaction in which he bought a book, ostensibly for the library, and afterward sold it at a profit, have given rise to numerous and widespread criticisms. It has been openly asserted in newspapers in various sections of the State that the librarian's usefulness has ended, and that he should resign. His resignation has been tendered, and is in the hands of the board, but through a desire to do absolute justice and not act hastily, the board deferred any action until the record of the legislative inquiry had been prepared.

Members of Board.

Members of Board.

The board consists of Messrs. Charles V. Meredith and S. S. P. Patteson, of this city: Mr. J. W. Fishburne, of Charlottesville: Mr. A. C. Gordon, of Staunton, and Judge Theo. S. Garnett, of Norfolk. These gentlemen were elected by the State Board of Education, and the librarian is chosen for a term, subject to the pleasure of the board.

Naturally, all concerned in the matter are disinclined to discuss the probable action to be taken at this meeting. A minority of the board reside in this chosen for the control of the con

tion.

A feature of interest in connection with the attitude of the board in this matter is the situation in which the subordinates who testified in the recent legislative investigation may be placed as a result. Although their testimony was required, reports have been circulated to the effect that the board, or some of the members, might resent their action in giving information adverse to their chief. In the event of the activation of the board of the strength of the property of the board toward his acceptance of the librarian's resignation the attitude of the bourd toward his assistants will be watched with keen interest. It has been rumored that the board might discharge all the other officials of the library on the ground that they had been engaged in a conspiracy, but opinion generally inclines to the spinion that this is wholly unlikely.

WASHINGTON, D. C., March 10.—in addition to the great iron-clads of the Atlantic fleet, commanded by Admiral Evans, the naval display at the Jamestown Exposition will include some of the finest vessels of foreign navies. These are mostly of the cruiser class, but as the armored vessels of this type are equal to battleships in size and scarcely less formidable in appearance, they will make an attractive show. CORTLAND, N. V., March 10,—Arthur Potter, a farmer of Blodgetts Mills, was arrested to-day charged with assault with intent to kill upon Leon Stafford, his nearest neighbor. Stafford, who was struck on the head with the square end of an ax-blade, was believed to be dying to-night. To-day's storm helped to pile up the drifts that have made readways that skirt the adjoining farms of the two men almost impassable in places. Stafford and turned from the highway and was driving his team across Potter's land when the latter closed a gate in front of Stafford's team and warned the other not to open it. Friends of the two men then interfered. After making an ante-mortem deposition, Stafford lapsed into unconsciousness.

[Special to The Times-Dispatch.]
NORFOLK. VA., March 10.—President W. T. Anderson, of the Norfolk Board of Trade and Business Men's Association, has called a meeting for Tuesday night to devise action against what is considered the arbitrary proceeding of the Cheenpake and Onio Railroad in making the excursion rates between Richmond and Norfolk for the Jamestown Exposition just double the former summer excursion rates maintained by that road. The association the exposition management and the people at large keenly resent the action of the railroad, and will doubtless adopt retailiatory methods, but just what action will be taken it is not yet known. price nor persuasion could have the desired effect, and in connection with this circumstance quite a startling discovery has been made which is worth consideration.

It has been the custom of the whites, in helping the negroes to their efforts at bread-winning, to give them credit for their necessities and await on their convenience to pay for same, but since it is discovered that they have arrayed themselves in a body against their benefactors the arrangement will be changed. Some of the whites are refusing to rent houses to negroes unless they agree to work for them if called upon.

There are a few negroes who do not belong to this society, and these few say that the "meeting hours" are spent in "talking down white folks" and declaring themselves equals and toe good for servants.
